

Fudge Cooker/Mixer - Daily Unit Cleaning Procedure

The instructional content provided is for general informational purposes only. It is to be used as a reference and is not to be considered a complete or exhaustive resource. Users should always consult the appropriate product manual for specific step-by-step instructions. If you are in need of further assistance, please contact Gold Medal directly at 800-543-0862 or email info@gmpopcorn.com.

Follow the directions to clean and sanitize the unit each day after use.

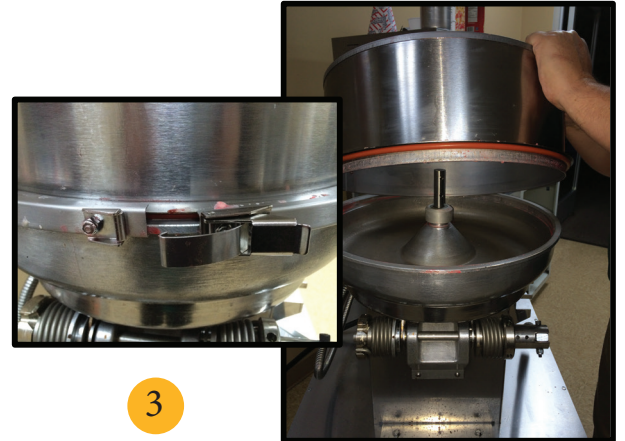

TOTAL CLEANING TIME: Approximately 10 Minutes

1 After the final steam clean, turn the machine OFF, unplug the unit and allow it to cool before cleaning. Make sure to clean all pans/accessories in order to sanitize them before each use.

2 Remove paddle via the small wing nut lock stud. The paddle can be washed in a sink or dishwasher; also the small silicone scraper can be removed via the 2 small wing nuts holding the scraper retainer..

3 Release the draw latch to easily remove the mixing drum, then take to the sink to clean. Remove drum seal and clean if needed.

4 Wipe the kettle lead cord with a clean SLIGHTLY damp cloth. DO NOT get moisture into the kettle lead-in cord, severe damage will result.

5 The cabinet/table the machine sits on should be wiped clean daily with a clean, slightly damp soft cloth.

6 Wipe the stainless steel parts with a clean cloth and cleaner designed for stainless steel such as Gold Medal Watchdog Stainless Cleaner (Item No. 2088). DO NOT USE OVEN CLEANERS OR ABRASIVE MATERIALS.

Fudge Cooker/Mixer - Daily Unit Reassembly Procedure

The instructional content provided is for general informational purposes only. It is to be used as a reference and is not to be considered a complete or exhaustive resource. Users should always consult the appropriate product manual for specific step-by-step instructions. If you are in need of further assistance, please contact Gold Medal directly at 800-543-0862 or email info@gmpopcorn.com.

Follow the directions to clean and sanitize the unit each day after use.

TOTAL CLEANING TIME: Approximately 10 Minutes

7 Wipe out kettle and rim once the drum is removed.

8 Once kettle is clean, replace clean paddle and wing nut onto the agitator shaft.

9 Take the drum seal and place a small amount of Petro Gel all around the drum seal and place seal on the lower level of the mixing drum. DO NOT stretch the seal out.

10 Place the mixing drum with the drum seal back on the kettle. The bolted side of the drum should be on the non-pour side.

11 Attach the retaining ring to the outside of the mixing drum and secure by latching the retaining ring clasp to ensure a tight fit.

12 Switch the toggle to the OPERATE mode. The machine is now ready for use.
